

**Presents:**

**Caribou in the Woods**

# IMAGINE A BETTER WAY

**Caribou  
Software**

- Foresters:
  - Having up to date tract-by-tract pricing and cruise information from your truck to facilitate timber bidding
  - Seeing real-time load ticket data to manage quota better
  - Having a visual map showing the status of all active tracts

# IMAGINE A BETTER WAY

**Caribou  
Software**

- **Loaderman:**
  - Capturing Loads digitally on an iphone
  - Email Load Sheet to Forester Daily
  - Replace (or Supplement) Hand-Written Load Sheets
- **Office Personnel:**
  - Adding mill ticket and weights to the loads
  - Easily identifying woods tickets that have not made it to the mill

# CARIBOU COMPONENTS

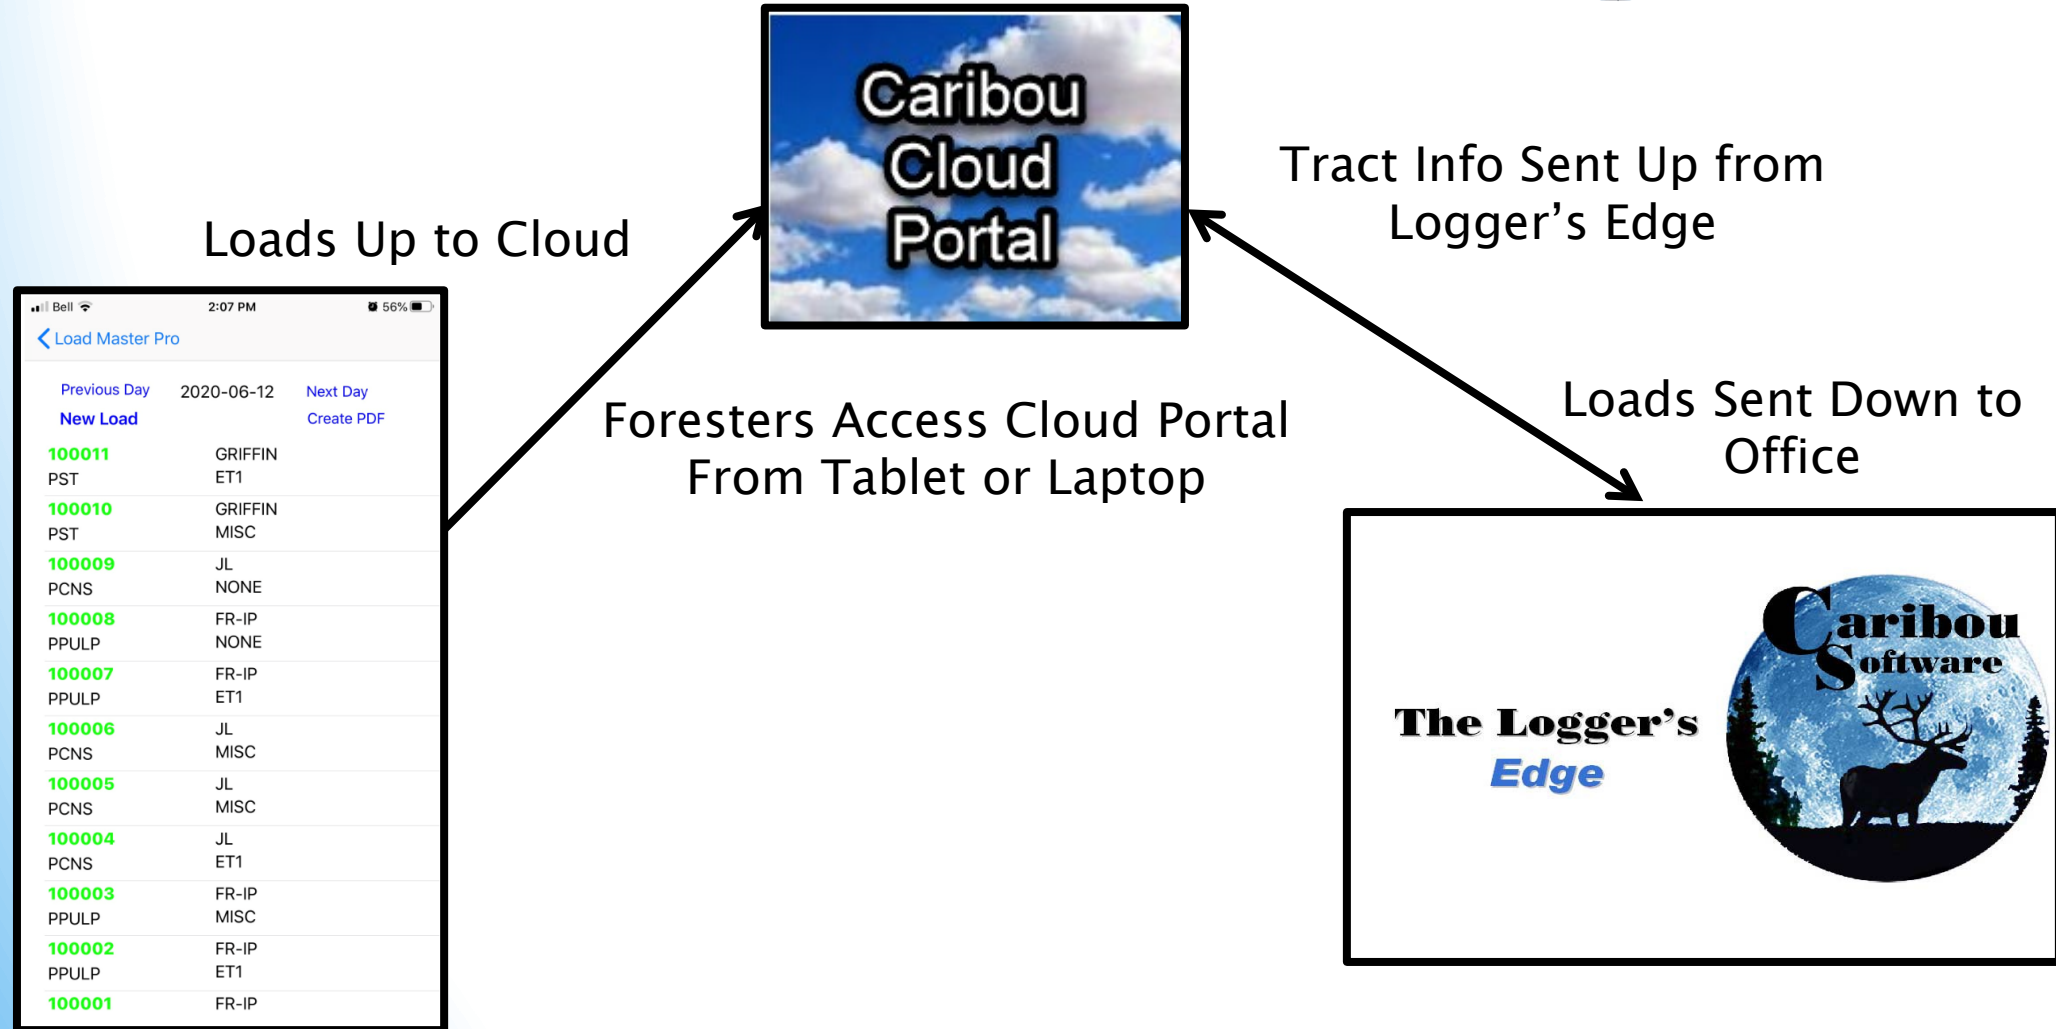

**Caribou  
Software**

- **Logger's Edge**
  - Log Payment and Reconciliation System
  - Ticket Book Feature for Load Security
- **Caribou Web Portal**
  - Visual Map of Tracts
  - Basic Tract Information Available in the Field
- **Load Master**
  - Apple iPhone App for Load Entry in Field
  - Loads Sent Automatically to LE – no more re-keying

- Use on Apple Iphone
- Loaderman Enters Data
- Works Offline
- Sends Loads to Web Portal when in Cell Range

# BENEFITS

**Caribou  
Software**

- Real-Time Field Visibility of Daily Loads and Tract Information for Foresters and Landowners
- Eliminate Costs and Hassles of Pre-Printed Woods Ticket Books
- Eliminate Key-Punching of Tickets in the Office
- Ensure Every Load in the Woods is Captured in the Office
